

## Indiana Office of Technology (IOT) Information Technology Standard (ITS) 00-1

Technology Profile: Software

Specific Area: Geographic Information Systems

Purpose: To define the software standard for all Geographic Information Systems (GIS) in the enterprise.

Standard: The Indiana Office of Technology hereby establishes Environmental Systems Research Institute, Inc. (ESRI) software as the sole standard for all Geographic Information Systems. State agencies developing new or significantly enhanced GIS applications will use ESRI software.

Scope: All agencies within the executive branch of Indiana state government

Statutory Authority: IC 4-13.1

Reference: N/A

Effective Date: July 1, 2005 (re-issued)
